

# BIO-BLOK<sup>®</sup> Random

For Wastewater Treatment and Aquaculture Applications

## BIO-BLOK<sup>®</sup> Random

Ø 25 x 10mm as standard – random filter media

- Specific biological surface area 534m<sup>2</sup>/m<sup>3</sup> filter media
- 125kg/m<sup>3</sup>
- Density approx. 0.96 gm/cm<sup>3</sup>

*Due to the natural characteristics of extruded products, all measurements are approximate.*
